

Explore Card Photo Help Guide

Hats and dark glasses should not be worn unless needed for medical or religious reasons.

1. Size and position of image

Optimum measurements are shown on the reverse of this sheet (35mm wide by 45mm high). Look directly ahead straight at the camera.

too close

too far away

not looking directly ahead

2. Image background

Avoid patterns and other images encroaching into the background. A plain pale background is most successful.

too dark

patterned

contains other images

3. Photograph Quality

Avoid over or under exposed photos. Watch out for shadows created behind the subject.

too light
